If the rates of your home canton are less than the future designated charges of Triemli Municipal Hospital

OR

If Triemli Municipal Hospital is not included in the hospital listing of your home canton

**You could afterwards be committed to participate in the payment of the charges!**

Experience has shown that the additional bills amount from CHF 200.- up to CHF 1'500.- depending on diagnosis and place of residence.

<sup>1</sup> Since 01.01.2012 it is permitted to undergo hospital treatment outside of your canton of residence. We would like to point out that the governing council has determined charges for Triemli Municipal Hospital which are lower than the charges in your canton of residence at the present time .

The rates of our scale of charges are on a provisional basis at the present time. If , in 2 years time, the governing council or the Federal Administrative Court become convinced that higher rates would have been justified, additional bills could be sent at a later date.
